

Charles C. Margossian

charles.margossian@ubc.ca • charlesm93.github.io • Vancouver, BC

Current position

Assistant Professor, University of British Columbia, Vancouver, Canada.
Department of Statistics

2025–Present

Education

Ph.D. Statistics, Columbia University, New York, NY.	2017– 2022
◦ Thesis: <i>Modernizing Markov chains Monte Carlo for scientific and Bayesian modeling</i>	
◦ Advisor: Andrew Gelman	
◦ Dissertation Committee: Aki Vehtari, Matt Hoffman, Sumit Mukherjee and David Blei	
B.Sci. Physics, Yale University, New Haven, CT.	2011–2015
Baccalauréat Scientifique, Ecole Jeannine Manuel (High school), Paris, France.	2009–2011

Experience

Postdoctoral Research Fellow, Flatiron Institute, New York, NY. Center for Computational Mathematics	2022–2025
Research Intern, Google Research, New York, NY. TensorFlow Probability Team	Sum. 2021
Visiting Doctoral Student, Aalto University, Espoo, Finland. Department of Computer Science	Sum. 2019
Visiting Scientist, Metrum Research Group, Tariffville, CT and Cambridge, MA. Pharmacometrics Bootcamp	2015–2017
Research Assistant, Yale University, New Haven, CT. Department of Astronomy	2013–2015
Patent Law Intern, Leinweber & Zimmermann, Munich, Germany.	Sum. 2014

Skills

Programming: Python (JAX, PyTorch), R, C++, Stan, L^AT_EX, GitHub
Languages: English, French, German

Software

Core developer, Stan: a probabilistic programming language, mc-stan.org.

Co-creator, Torsten: an extension of Stan for pharmacometrics modeling, [GitHub](https://github.com/torstenmrg/mrgSolve).

Contributor, mrgSolve: Simulation from ODE-Based Population PK/PD and System Pharmacology Models, [GitHub](https://github.com/torstenmrg/mrgSolve).

Contributor, bayesplot: Plotting for Bayesian Models in R, [Cran](https://cran.r-project.org/package=bayesplot).

Awards and recognitions

AISTATS best paper award , For <i>Variational Inference in Location-Scale Families: exact recovery of the mean and correlation matrix</i> , best paper out of 583 accepted papers and 1,861 submitted papers at the International Conference on Artificial Intelligence and Statistics.	2025
ISBA best poster award , For <i>Monitoring Nonstationary Variance to Assess Convergence of MCMC</i> , presented at the International Society of Bayesian Analysis (ISBA): World Meeting.	2024
WIREs top article , For <i>A Review of Automatic Differentiation and its Efficient Implementation</i> , which was amongst the top 10 most cited articles in the 2021 Journal Citation Report for <i>WIREs: Data Mining and Knowledge Discovery</i> .	2022
Minghui Yu teaching assistant award , Department of Statistics, Columbia University, Awarded by the Director of Graduated Studies based on student feedback.	2022
AISTATS top reviewer , The top reviewers were selected based on the feedback received from the Area Chairs and comprise the top-10% of AISTATS reviewers.	2022
Dean's fellowship , Department of Statistics, Columbia University, 5 years funding for PhD degree.	2017
Yale book award , For "character and intellectual promise".	2010

Elected Member, Stan Governing Body, Two year term. 2022-2024

Organizer, StanCon 2024, Oxford, UK. 2024

Organizer, StanCon 2023, St Louis, MO. 2023

Student representative, PhD program in statistics at Columbia University. 2019 – 2020

Supervised students

Manny Mokel (undergraduate student), *Monitoring Nonstationary Variance to Assess Convergence of MCMC*, Flatiron Institute, New York, NY. 2023

Stanislas Du Ché (master student), *Parallelization for Markov chain Monte Carlo with heterogeneous runtimes*, Columbia University, New York, NY. 2022

Johann Gaebker (PhD student), *Propagating Derivatives through implicit functions in reverse mode automatic differentiation*, Columbia University, New York, NY. 2020

Léo Grinsztajn (master student), *Bayesian Workflow for disease transmission models*, Columbia University, New York, NY. 2020

Hyunji (Angie) Moon (undergraduate student), *Simulation-based Calibration for the embedded Laplace approximation*, Columbia University, New York, NY. 2020

Teaching

Instructor, *Bayesian Statistics: a practical introduction*, 4-hour lecture, Summer School on Cryptography, Statistics and Machine Learning, Tsaghkadzor, Armenia. 2025

Instructor, *Monte Carlo Methods*, Half-a-day course, Nordic Summer School on Probabilistic AI, Copenhagen, Denmark. 2024

Instructor, *Bayesian Workflow for hierarchical and ODE-based models*, Three day workshop, Summer School on Advanced Bayesian Methods, Leuven, Belgium. 2023

Instructor , <i>Fundamentals of Stan</i> , Half-day workshop, StanCon 2023, Washington University in St Louis, St Louis, MO.	2023
Instructor , <i>Building, fitting, and criticizing Bayesian PK/PD models</i> , One day workshop, University of Buffalo, Buffalo, NY.	2019–2023
Lecturer , <i>Probability and Bayes</i> , Lecture for PHC 506: Biometry in Pharmaceutics, University of Buffalo, Buffalo, NY.	2019–2023
Instructor , <i>Stan for the people: an introductory workshop to Bayesian modeling</i> , Two day workshop, McGill University, Montreal, Canada.	2019, 2020
Instructor , <i>Population and ODE-based models using Stan and Torsten</i> , Two day workshop, StanCon 2019, Cambridge University, Cambridge, UK.	2019
Guest Lecturer , <i>Introduction to Bayesian Data Analysis with Stan</i> , Lecture for STAT 2020: Bayesian Statistics, Harvard University, Cambridge, MA.	2017
Teaching Assistant , Recipient of the Minghui Yu Teaching Assistant Award, Courses at all levels (undergrad, masters and PhD), Columbia University, New York, NY.	2017–2022
Peer Tutor , Science, Technology, and Research Scholars (STARS) program, Yale University, New Haven, CT.	2013–2015

Invited talks (selected)

Invited Talk , <i>Variational Inference in the Presence of Symmetry</i> , Seminar, Department of Statistical Sciences, University of Toronto, Toronto, ON.	2025
Invited Talk , <i>Variational Inference in the Presence of Symmetry</i> , Seminar, Department of Statistics and Actuarial Sciences, University of Waterloo, Waterloo, ON.	2025
Proposed talk , <i>Assessing the Convergence of MCMC when running many (short) chains</i> , Fast and Curious 2: MCMC in action, Toronto, ON.	2025
Proposed talk , <i>Assessing the Convergence of MCMC when running many (short) chains</i> , CANSSI Monte Carlo workshop, Vancouver, BC.	2025
Invited talk , <i>Matching symmetries with variational inference</i> , ASA/IMS Spring Research Conference, New York, NY.	2025
Chaired Session , Parallel Computations for Markov Chain Monte Carlo, BayesComp, Singapore.	2025
Invited talk , <i>Matching Symmetries with Variational Inference</i> , BayesComp, Singapore.	2025
Invited talk (best paper award) , <i>Variational Inference in Location-Scale Families: Exact recovery of the mean and correlation matrix</i> , International Conference on Artificial Intelligence, Phuket, Thailand.	2025
Invited talk , <i>Markov Chain Monte Carlo and Variational Inference in the Age of Parallel Computation</i> , Manchester Center for AI Fundamentals, Manchester, UK.	2025
Chaired session , <i>Monte Carlo methods using modern hardware</i> , International Society of Bayesian Analysis (ISBA): World Meeting, Venice, Italy.	2024
Invited talk , <i>Variational Inference for Uncertainty Quantification: An Analysis of Trade-offs</i> , International Society of Bayesian Analysis (ISBA): World Meeting, Venice, Italy.	2024
Invited talk , <i>The Wisdom of Automatic Differentiation</i> , Applied and Computational Math Group Meeting, Courant Institute, New York University, New York, NY.	2023
Oral Presentation , <i>The Shrinkage-Delinkage Trade-off: An Analysis of Factorized Gaussian Approximations for Variational Inference</i> , Conference on Uncertainty in Artificial Intelligence, Pittsburgh, PA.	2023

Invited talk , <i>Making Bayesian Pharmacometrics modeling simpler (but not too simple) with Stan</i> , Stan for Pharmacometrics Day, INSERM, Paris, France.	2023
Invited talk , <i>Amortized Variational Inference: when and why?</i> , Flatiron-wide Meeting on Machine Learning, Flatiron Institute, New York, NY.	2023
Lecture , <i>Solving ODEs in a Bayesian model</i> , Flatiron-Wide Algorithms and Mathematics ($F_\omega(\alpha+m)!$), Flatiron Institute, New York, NY.	2022
Invited talk , <i>Nested \hat{R}: Assessing convergence for Markov chains Monte Carlo when running many short chains</i> , Center for Research in Economics and Statistics (CREST), École Polytechnique, Paris, France.	2022
Talk , <i>Bayesian inference for latent Gaussian models: MCMC, approximate methods, and hybrids</i> , Minghui Yu memorial conference, Columbia University, New York, NY.	2021
Invited talk , <i>Developing a Bayesian modeling workflow for population PBPK</i> , American Conference on Pharmacometrics, Online.	2020
Invited talk , <i>Developing a Bayesian workflow to model the Covid-19 outbreak</i> , 12 th Covid-19 symposium, Columbia University, New York, NY.	2020
Proposed talk , <i>Computing steady states with Stan's nonlinear algebraic solver</i> , StanCon, Pacific Grove, CA.	2018
Proposed talk , <i>Differential equations based models in Stan</i> , StanCon, Columbia University, New York, NY.	2017
Invited talk , <i>Differential equations based models in Stan</i> , Stan Meetup in Boston, Harvard University, Cambridge, MA.	2016
Lecture , <i>Practice (and malpractices!) of Bayesian analysis</i> , Metrum Journal Minute, Tariffville, CT.	2016
Talk , <i>How stars and planets interact: testing the effects of close-in giant planets on stellar magnetic activity</i> , Davenport Mellon Forum, Yale University, New Haven, CT.	2015

Modified November 2025
